Beards price in Sept. was $4.50 by the cords. —

Observatory 19 Nov 1860

Dear Sir

My procuring firewood from Stewart has been always attended with great inconvenience on account of the very great irregularity with which he delivers it; I have however submitted to this, greatly against my own inclination, in consequence of a wish or recommendation of yours some time ago, when I understood you to say that Stewart had been always employed, and that it would suit your arrangements better if I employed him also in preference to others. Acting under this belief, I in ordering the wood I left the matter of price, as I had always done, to be settled by you.

However to reply to your questions.

I

not anticipating this difficulty I did not keep any memorandum of the exact date of the order, but to the best of my recollection it was about the middle of September.

The delivery was as follows:

			cord
1st week in october	1 load	measuring	$1\frac{7}{32}$
16 october	2 loads	- - -	$2\frac{13}{32}$
22 october completed several loads amounting to			14
In about 10 days terminating			
10 Nov.	completed 8 loads consisting of		$8\frac{16}{32}$
Making in all			$26\frac{4}{32}$
			$= 26\frac{1}{8}$

I am very sorry that you should be put to this trouble but I think what I have said will explain how it has occurred.

I am yours very truly

I could act nothing
more in the matter of your
investments until to day in
consequence of the absence of Galt.
I have to day reported upon your
application – You will act instructions
to invest in Government Debentures
as you may have funds to spare
without applying in each case.
Your plan will be when you want
to invest to write to the Receiver
General to know whether he
has any Debentures to dispose

if in which case authority will be given to him by the O.C. to supply you at the market price, but if he has none you will have to go into the general market to purchase, which in ordinary cases must be done through a broker in London - We are about opening some Debentures now for the convenience of the Banks & Insurance offices & you are to be included in the arrangement, & the price will be 2 & cent premium for 5 °/o £. In your case it would always be better to have the Debentures converted into stock

which is done by the Agents in London without charge - Scott is going to make arrangements for keeping interest here in Stock or Debentures held in this country, but I fancy you could draw your interest as well through the Bank of U.C. That however is a matter for after consideration. At present the alarming circumstance is that you can only invest at 5 °/o & that at a premium - There are going to be a good many of our 5 °/o held in this country besides those held by the Banks &c, & some of these

Copy of a Report of a Committee of the Honorable the **EXECUTIVE COUNCIL**, ~~dated~~ _____ approved by His Excellency the ~~Governor General~~ Administrator in Council on the 18th Decr. 1860.

On a communication dated 14th November 1860 from the Bursar of the University of Toronto, representing that in consequence of the recent redemption of a considerable amount of Debentures in his possession, as investments of University & Upper Canada College funds, there is now a sum of about $40,000 at his credit in account with the Bank of Upper Canada:— That it therefore becomes necessary that he should receive instructions for re-investment, to prevent the loss of Income consequent upon a large sum being unemployed:— That he cannot invest all the $40,000, as he requires money for current expenditure; but as he has funds continually coming in on account of the "Permanent" funds, which it would be advantageous to be able to invest from time to time, without allowing it to accumulate, he requests to be furnished with general instructions in reference to the kind of Security which he should seek.

The Auditor of Public Accounts reports

To the Honorable
The Provincial Secretary
&c. &c. &c.

reports that it does not appear advisable that the funds of a Public Body like the University should be invested otherwise than in Government Securities: and he would recommend that general instructions be given to the Bursar to invest such sums as he may have lying idle in Government Securities, without any special reference to Council in each case. That in ordinary cases, he would have to purchase in the Market, through an Agent, but that if the Government have any securities to dispose of, he thinks that a Public Body like the University, might be supplied by the Government direct. That it may also be expedient to authorise the Bursar to invest in the Securities created by the Seigniorial Act of 1854 which may be looked upon as strictly Provincial Securities.

The Minister of Finance approving this recommendation, the Committee submit the same for your Excellency's Sanction.

Copy

Copy of a Report of a Committee of the Honorable the Executive Council approved by His Excellency the Administrator in Council on the 18th December 1860.

On an application on behalf of Alexander Campbell, to be secured in the possession of the South 100 acres of lot No 14, in the 4th Range, South of the Longwood Road, in the Township of Ekfrid, as the Assignee of Andrew Wilson, who purchased the same from the Government Agent the Hon: Thomas Talbot - on the 2d January 1830, and paid the amount of purchase money - the said lot having inadvertently, in 1832, been patented to the King's College.

The Commissioner of Crown Lands recommends that the amount paid in on the above lot £62.10/- be handed over to the Bursar of the University and Colleges at Toronto, and that he be authorised to issue a Deed for the said hundred acres to Alexander Campbell - but that, with regard to the interest on the amount referred to, which the

College

College claims from the date of the grant to them in 1822 it is a question whether, under the circumstances, it should be paid by the Government.

The Committee concur in the above recommendations, which they submit for your Excellency's approval - with regard to the interest claimed they cannot advise that it be allowed.

The case of the Masters of the U.C. College, to which you refer, seems to me inapplicable in this instance, as their salaries were fixed by Statute. An example more analogous is to be found in your recent payment of six months' wages to Newton, the University messenger, on the authority of a resolution of the Senate.

The Committee have had under consideration a communication from the President of University College, Toronto, enclosing three Minutes of the College Council — the first dated 26 Decem^r 1859, appointing the Revd Arthur Wickson, M.A., Classical Tutor for a second term of four years, & the other two dated 31st of that Month, recommending respectively the dismissal of James Patterson & James Coady from the service of that Institution; to the first of which Minutes they request the approval of your Excellency, as Visitor; & the two latter they submit for the Sanction of Your Excellency in Council.

They have also had before them a Copy of a Minute of the College Council, dated 5th February 1861, directing an allowance of nine Months pay to be made to the same James Coady, and a Petition from the latter praying that compensation be made to him for the loss of his situation.

The Hon: the Attorney General U.C. recommends that the Revd Arthur Wickson, M.A., be appointed Classical Tutor for a second term of four years from the date of the expiration of his first term, and that the College Council be informed that

To the Honorable
The Provincial Secretary &c &c &c

that their resolution relating to this appointment is inaccurate, in as much as it appoints Mr. Wickson, subject to the approval of the Visitor instead of recommending him for appointment by the Governor General.

He further recommends that the Resolution of the Council, dated 31st Decemr. 1859 suspending James Patterson be confirmed, & further that the said James Patterson be dismissed.

He also further recommends that the Resolution of the Council of the same date, recommending the dismissal of James Coady from & after the 18th May 1860, be confirmed and inasmuch as the said Coady has been continued since that date, in the employment of the College, he recommends that he be paid his Salary to 18th May 1861, in full of all compensation for loss of Office.

My dear Jackson,

You will remember, I dare say, our selling to the Corporation of West Hope the piece of land on the University property there, called the Pine Hill, - measuring as well from our fourteen papers. The enclosed account will show you what payments have been made.

I have, within the last 12 months, had several interviews with deputations from the Corporation; - their object being to negotiate a surrender, with the view of ~~their~~ easing their liabilities preparatory to an effort to consolidate their debt.

Two or three weeks ago I remark the copy Minute of Council No 1. Then came the mayor called upon me, and the result of our conversation is the receipt, this forenoon, of minute No 2. But it does not cover all the ground. I expect that other lots sold, besides those named, will probably fall back into our hands, and the understanding was that back taxes on all of them should be remitted ~~[illegible]~~ in so far as the University is concerned. Moreover I think that, unless again sold, the corporation ought to ~~[illegible]~~ exempt the Pine hill they propose to surrender from ~~of~~ Taxes.

Yr. obt. servt.

The Mayor and Corporation are very pressing on the subject of this proposed surrender. I do not feel that I should be warranted in accepting it without advice; and I cannot get a meeting of the Board at present. Will you, therefore, be kind enough to favor me with your opinion. I am very unwilling to take back land. Still we are offered a pretty fair consideration; and I suppose we cannot do better. If you concur, please to make your remarks on this letter and send it back with the other papers. I suppose that will give you least trouble.

Any prospect of the Park Lease being authorised?

Believe yours sincerely

Statute
Of the Prince's Prize.

Whereas His Royal Highness, the Prince of Wales, upon the occasion of his recent visit to Canada, was graciously pleased to present to the University of Toronto the sum of two hundred pounds for the purpose of establishing a prize in commemoration of His Royal Highness' Visit.

By the Senate of the University of Toronto.

Be it enacted

I The sum of two hundred pounds presented by His Royal Highness the Prince of Wales, shall be invested by the Bursar in such securities as the other funds of the University are authorized to be invested in, and the said sum and the interest accruing thereon shall be kept by him as a separate fund.

II The sum of forty eight dollars, or such smaller sum as may be realized as interest on the investment, shall be annually appropriated for a prize, which shall be called "the Prince's Prize", and which shall consist of an ink-stand of such pattern and bearing such device as shall be determined upon by a Committee to be appointed for that purpose.

III The Prince's Prize shall be

awarded annually to the Candidate for the Degree of B.A., who having been classed in Honors in at least two Departments, & in the first class in at least one Department, shall have obtained the highest aggregate number of marks in all the subjects, which are appointed for the examination of Candidates for the Degree of B.A. together with the additional subjects herein prescribed.

IV In addition to the subjects appointed for the examination of Candidates for the Degree of B.A., the examiners in each Department or branch of a Department, shall examine the Candidates for the Prince's Prizes, in one paper upon such book or subjects as formed part of the course in previous years, but are not included in the final examination.

V In determining the aggregate amount of marks the examiners shall estimate the comparative value of the several Departments and branches of Departments according to the following schedule viz:

Greek & Latin	1250
Mathematics	1250
English	400
French	350
German	300
Italian	200
Spanish	100

Chemistry	500
Mineralogy & Geology	500
Natural History	400
Meteorology	50
Logic, Ethics and Metaphysics	950
Civil Polity	300
History	400

VI If in any year the Prince's Prize shall not have been awarded, the sum which would have been otherwise appropriated for the purchase of a prize, shall be added to the capital of the fund, and whenever the capital shall have accumulated to twelve hundred Dollars, the Bursar shall report the same to the Chancellor to the intent that the Senate may make a further appropriature of the interest thereof in compliance with the objects of the endowment.

By the inclosed note from the Vice Chancellor you will see that he requests me in his absence to take the requisite steps for having the Principal's House in Upper Canada College put in proper repair. The estimates which you have obtained from Messrs Carr & Keith, for the necessary plumbing and painting are, I believe such as are required. Being obliged to leave Town for a few days I have written to Dr Wilson, as a member of the Committee, to see you tomorrow and to show the House lately occupied by Mr Stennett, with the view of having such repairs made as might necessary to render it fit for Mr Jackson's residence.

With reference to your letter of the 9th of April transmitting $84. to complete the purchase of No. 10 in the 2nd Range S. L. Road in the Township of Mosa. I beg to state that the expression used in the letter of the 28th of February viz: that George Williams be required to complete the purchase was intended to convey the idea that the sale effected by Col Talbot on the 5th April 1833, the date given by you, would be sustained and completed through the Department at the rate of 15/- an acre, subject to interest from the date thereof, as would it may be presumed, have been done had the University been entitled to the money, not that a sale would be made at the present time at only 15/- an acre.

If the $84 sent $21 will be taken for the amount paid to Col Talbot as the first instalment - interest being required to be paid on ($63) the balance. -

My dear sir,

I think I have already told you that all official letters are opened by our Registrar & sent to the respective branches to be answered so I dont see them until they come with the answers. If therefore you wish me to see any letter at once mark it private on the envelope & it will come to me to be opened. I am exceedingly busy now, so have not time to read the whole correspondence in that case, but suppose there was some ambiguity in Mr Tarbutts letter about the manner of carrying out the sale. What was intended

6

-109-

tions that you should transmit to the department the 1st instalment i.e. the amount Col. Talbot received & erroneously sent to the College authorities instead of to the department, we would then take the balance from the purchaser, dating the sale from the time the Col. received the 1st instalment & charging the purchaser (not the ~~University~~ College) the interest from that period as in all other sales.

If you received the balance of the purchase money from the purchaser long ago it would be like the Elkfork case you quote, but if he has paid it since you first wrote, I dont see why he should be excused from paying interest from the date of purchase i.e. the sale by Col. Talbot. This sale having been made to George Williams we could not make the patent to James Eastman without the assignments See Land Act-

The official letter now sent is not worded exactly as I could wish, but if I have all the letters I do not like the style of rewritten, one half of the business would remain undone

With best respects to Mrs Buchan & family

Sir

I have the honor to acknowledge the receipt of your letter of the 27th ultimo, and beg to state in reply that the conclusion - and the only one as it appears to me that could be arrived at from your previous letters on the subject, was that the 1st instalment £5. 5/- ($21) had been paid to the University, which sum alone the Department expected to be refunded, leaving the party in possession of the land to complete the purchase by the payment of the arrears viz. the three remaining instalments (£15. 15/-) with interest from the date of sale -

April 5th 1833

It is presumed that had you - in behalf of the University, collected the balance of the purchase money - you would have pursued a like course.

There was certainly no intention to exact from the University interest on money erroneously received by it; but cannot admit the right of Mr Eastman to complete a purchase made to Geo Williams in 1833 by payment of the principal without interest

interest; and your letter of the 9th of April distinctly stated, that the money sent was derived from Mr Eastman and not from the funds of the University.—

The papers were sent establishing Mr Eastman's claim. The reason why evidence was required on this point was—because in your letter of the 6th of Feb. you intimated a doubt as to the propriety of paying the money, and said that Mr Eastman had failed to obtain a release from his assumed wife—and offering no explanation as to the nature of this protection or why you received, received & the money from him.

With this explanation it is needless to allude to the account you sent relating to the South 100 acres of Lot 14 in 4th Con: of Enfield.

The quantities of coal required for next year's consumption may be stated at:- Lehigh (large egg), 175 tons, Brianhill, 275 tons, and perhaps about 10 tons of small egg. i. e. Scranton.

I cannot speak positively about the last until the return of the Steward.

We do not wish the coal to be delivered, until notice is given, as some repairs are required in the basement drains.

David Buchanan Esq
Burwash Township

Dear Sir,

I receipt by yours of 23rd inst. I feel bound that, in the most unaccountable manner, you have been a meaning by my words which I conceive to be quite unwarranted. My letter simply stated — that a sum of money had been paid, and of course charged against the University, without my Certificate — that I had called to see you on the subject, and, as you were out of Town, I had left a message with Mr Cameron — that I thought it one by you, as Bursar, to communicate by letter, instead of through the medium of a message — that I felt myself responsible for every item of University expenditure not specifically provided for by Statute, and "that under all matters passed through "my hands there would be an entire "absence of system and responsibility" — and I concluded by requesting that "the "necessary steps might at once be taken "to secure a system of Checks by which "you equally with myself might be benefitted."

Apos "concerning you", believe me, the idea was quite foreign to me when penning a Protest against a system, which, while it was manifestly unfair to me as the responsible Party, was equally so to you as the Curator of Public Works. With the discharge of your duties as Bursar I neither desire nor can be considered as seeking to concern myself (indeed, if I ventured an expression of opinion, it would be only to bear testimony to your great zeal and able management) but it is my province as Vice-Chancellor to take care that the University Fund is not burdened with accounts payable either by "University College" or by "Upper Canada College" & that no item is charged against the University which of right is payable by the College. These are separate interests to be guarded, and while I have no voice in the outlay of or for the College, (University College) I claim to be the working head and responsible officer in the University and as such that all monetary details should pass through my hands. This is the very matter which has given rise

Where correspondence unless the accounts were before you it would be impossible to say what good how much was charged against the College and what portion against the University. And this is made more apparent by a fact which I will mention i.e. that when the Committee met on "the grounds" items of charge were brought forward by Prof. Buckland which were referred to the Council of University College as forming part of the liability of that body. The force of your remark that "I see so far as "regards myself I feel that I was quite "justified in making the advance because "you have certified the accounts amounting "to $369.90 of which the $100 in question "forms a part", is not apparent, when it is borne in mind that, until the accounts were audited and certified, there could not, or rather ought not to be any application made at your Office.

It is not improbable that had the payment to Prof. Buckland stood alone I should not have felt it my duty to enter a formal Protest, but when I was aware that Mr John Carr, also, had received payment on an order of the Principal which had never been presented for my certificate (though on

the 14th Sept. I had countersigned an order in his favor for $50 00) and which I believe in some way or other passed through Dr. Smith's hands, there was really no alternative, unless I allowed any Member of any Committee to exercise this individual discretion without reference from or Chairman.

As to his respective official positions will necessarily bring us frequently together I would desire, once and for all, to state that where the responsibility is cast upon me, either as Vice Chancellor or Chairman of any Committee, I cannot recognize any departures from strict official routine. You have alluded to my predecessor, but I can hardly fancy that he, as the Head of a Department would knowingly sanction any usurpation of his powers, while at the same time he alone was held accountable.

Should you feel any difficulty in meeting my suggestions, it might possibly be desirable to take your instructions from the Attorney General, and to that end you are at full liberty to make use of this correspondence.

I remain, Dear Sir
Yours truly

My dear Sir

I have received your letter with the copy of the correspondence with Morrison. It is quite clear that you must make the best bargain you can in investing & your method of employing a broker is the best arrangement. All that Mr Fall or any other person interfering in the investment can do is to point out to their friends a source where they can get ready money at a fair price. The price must depend upon the market & I am quite sure

this was all that I perfectly intended to do. There may be in the market many county debentures of various counties, at the same market value or at the same value in proportion to the population of the county, or there may be many free debentures in the hands of various holders. Perhaps I may legitimately enough say, cæteris paribus you will oblige me if you will give this preference to my friend Mr Robinson & that I am sure is all he has nothing to say. As he, if he has, at a higher rate than the market rate you were perfectly right to buy elsewhere. Similarly I have sufficient friends in Victoria that when they sell their debentures to raise money for their Land Purchase they had better apply to him, but I have told them they must sell at prices equivalent to what other matters in similar loan credit are selling in the open market. The disadvantage to them will be that you would find a purchaser at once and handling them about that a purchaser to whom it is probably a matter of indifference whether he buys $4000 or $5000. This I think I may legitimately say to you, you will oblige me in doing this for me

My dear sir,

Thomas H Gibbs of Kingston is, I think, the nearest Surveyor that would suit you. For town plot surveys you require one who can draw a neat plan. Gibbs is one of our best surveyors both as to field work & plans. Rumour says he drinks at times but his drawing & writing are so steady it is hard to believe it. We have one J J Haslet in Belleville but he is very slow & expensive & F. Emerson goes in the field but cannot draw well. We have

got the front of the Chateau. Sir E. Head occupies it so we are making changes in the rooms which will delay copying the plan of Keswick for a few days.

We are all well.

My dear Sir

I have had no end of bother about your Toronto Bonds, but I think I have made a satisfactory arrangement at last & you have lost a contribution of £400 to your income fund which you did not object. I think by being stiff I might have lost more, but it would have been hardly fair & I did not like to screw - The facts are these -

We made the offer to take the Debentures at 90 about July & we meant 90 & expens & it was upon this understanding that I wrote to you before when buying the Bonds [illegible] - However when I saw the [illegible] (I had not then seen the [illegible] letter) he said he thought we had

had two or three years in the Estates

& found that the Equitable Life
Company, on a fair so 90 will certain.
y be credited as much & only
two & Mechanical science was now the
company had been formed & carried
the government was only charged for
the Period 87 – As this is some time was
only an Agent in the matter they
might not to make a profit on the
business done, as the actuary stands, i.e.
they have been credit for this the half
year company on the Period & which
is half year interest on the profits
from – that profit cannot exceed
the difference between our underlying

the profits or losses – Now I do not
know we clearly did not attend to all
points. As with a half year ending
standing to 90 & that the profits should
all the benefit of the mutual stands.
Still we would be embarrassed lest

I have the following remarks to make when your accounts to June 30.

You charge the brokerage on the purchase of Debentures to the Income - I think it is as legitimate a charge against the Permanent Fund as the Discount on the purchase is as a deduction. I would also suggest that when debentures are purchased you should receive the Brokers account receipted which will then form a Voucher for all the charges both against the Permanent Fund & Income Fund arising out of the transaction which are now wanting -

Brokerage Debentures purchased

With regard to the schedule of frequently happens that the vouchers for one quarter are supplied the next - there in this quarter there is no voucher for W W Smith, but there are vouchers without corresponding charge for Dermit, Rogers, & Webster - This creates some confusion - It would be well if for the future you send the vouchers to supply former omissions separately & noted as such, calling attention to vouchers of the kind wanting to be supplied hereafter

Mr Warren's pension is vouched for this quarter by Alred E Evans for Lt Mason - We should have some

authority for this -
